Harford County Public Schools
SCIENCE AND MATHEMATICS ACADEMY
MENTORSHIP PROGRAM

Mentor Reference

To: THE SUPERVISOR OF

We are pleased that your firm has agreed to work with the Mentorship Program at the Science and Mathematics Academy (SMA) at Aberdeen High School, Harford County Public Schools. The mentorship experience allows students to expand their interests and abilities in a professional setting, working with mentors who have chosen to share their knowledge, experience and talents. Students become more confident and self-sufficient, as well as creatively productive, as they apply their critical thinking skills in solving challenging problems. The experience also provides the mentoring firms with a useful resource of talent and a rewarding experience of working with motivated students.
Students are generally highly motivated and do not need constant supervision. Students are expected to utilize the resources available and work independently, but they need to have available to them the expertise and knowledge of a mentor who will assist with problem-solving and provide direction and leadership as needed.

Harford County Public Schools requires that the Mentorship Office have this reference form, a résumé and a signed agreement on file for each mentor who is working with a student.

The above scientist/engineer has agreed to serve as a mentor for a student from the SMA. Your signature below indicates that you are aware of and approve of this mentorship arrangement and that you know of no reason why this individual cannot function in this capacity as a mentor working successfully with an adolescent student.
